

Потребители с максимальной мощностью энергопринимающих устройств свыше 10 МВт

Предельные уровни нерегулируемых цен на электрическую энергию (мощность), поставляемую потребителям (покупателям)  
гарантирующим поставщиком ООО "Ивановоэнергосбыт"

в феврале 2025  
(месяц и год)

**I. Первая ценовая категория**

(для объемов покупки электрической энергии (мощности), учет которых осуществляется в целом за расчетный период)

**1. Предельный уровень нерегулируемых цен**

|                                                             | Уровень напряжения |          |          |          |
|-------------------------------------------------------------|--------------------|----------|----------|----------|
|                                                             | ВН                 | СН I     | СН II    | НН       |
| Предельный уровень нерегулируемых цен, рублей/МВт·ч без НДС | 5 770.25           | 6 140.78 | 7 649.23 | 9 033.49 |

|                                                                                                                                                                                                |                |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| 2. Средневзвешенная нерегулируемая цена на электрическую энергию (мощность), используемая для расчета предельного уровня нерегулируемых цен для первой ценовой категории, рублей/МВт·ч без НДС | 3 160.57       |
| 3. Составляющие расчета средневзвешенной нерегулируемой цены на электрическую энергию (мощность), используемой для расчета предельного уровня нерегулируемых цен для первой ценовой категории: |                |
| а) средневзвешенная нерегулируемая цена на электрическую энергию на оптовом рынке, рублей/МВт·ч                                                                                                | 1842.83        |
| б) средневзвешенная нерегулируемая цена на мощность на оптовом рынке, рублей/МВт                                                                                                               | 894429.65      |
| в) коэффициент оплаты мощности потребителями (покупателями), осуществляющими расчеты по первой ценовой категории, 1/час                                                                        | 0.00147327013  |
| г) объем фактического пикового потребления гарантирующего поставщика на оптовом рынке, МВт                                                                                                     | 102.318        |
| д) величина мощности, соответствующей покупке электрической энергии гарантирующим поставщиком у производителей электрической энергии (мощности) на розничных рынках, МВт                       | 0.000000000000 |
| е) сумма величин мощности, оплачиваемой на розничном рынке потребителями (покупателями), осуществляющими расчеты по второй - шестой ценовым категориям, МВт                                    | 7.055          |
| в том числе:                                                                                                                                                                                   |                |
| по второй ценовой категории, МВт                                                                                                                                                               | 0.055          |
| по третьей ценовой категории, МВт                                                                                                                                                              | 0.296          |
| по четвертой ценовой категории, МВт                                                                                                                                                            | 6.704          |
| по пятой ценовой категории, МВт                                                                                                                                                                | 0.000          |
| по шестой ценовой категории, МВт                                                                                                                                                               | 0.000          |
| ж) объем потребления мощности населением и приравненными к нему категориями потребителей, МВт                                                                                                  | 60.0600        |
| з) объем потребления электрической энергии потребителями (покупателями), осуществляющими расчеты по второй ценовой категории, МВт·ч                                                            | 16.507         |
| в том числе:                                                                                                                                                                                   |                |
| для трех зон суток, МВт·ч                                                                                                                                                                      | 16.507         |
| по ночной зоне суток, МВт·ч                                                                                                                                                                    | 4.910          |
| по полупиковой зоне суток, МВт·ч                                                                                                                                                               | 6.267          |
| по пиковой зоне суток, МВт·ч                                                                                                                                                                   | 5.330          |
| для двух зон суток, МВт·ч                                                                                                                                                                      | 0.000          |
| по ночной зоне суток, МВт·ч                                                                                                                                                                    | 0.000          |
| по пиковой зоне суток, МВт·ч                                                                                                                                                                   | 0.000          |
| и) фактический объем потребления электрической энергии гарантирующим поставщиком на оптовом рынке, МВт·ч                                                                                       | 58251.465      |
| к) совокупный объем покупки электрической энергии гарантирующим поставщиком у производителей электрической энергии (мощности) на розничных рынках, МВт·ч                                       | 0.000          |
| в т.ч. у собственников и иных законных владельцев объектов микрогенерации, МВт·ч                                                                                                               | 0.000          |
| л) сумма объемов потребления электрической энергии потребителями (покупателями), осуществляющими расчеты по второй - шестой ценовым категориям, МВт·ч                                          | 4267.001       |
| в том числе:                                                                                                                                                                                   |                |
| по второй ценовой категории, МВт·ч                                                                                                                                                             | 16.507         |
| по третьей ценовой категории, МВт·ч                                                                                                                                                            | 143.759        |
| по четвертой ценовой категории, МВт·ч                                                                                                                                                          | 4106.735       |
| по пятой ценовой категории, МВт·ч                                                                                                                                                              | 0.000          |
| по шестой ценовой категории, МВт·ч                                                                                                                                                             | 0.000          |
| м) объем потребления электрической энергии населением и приравненными к нему категориями потребителей, МВт·ч                                                                                   | 30090.000      |
| н) величина изменения средневзвешенной нерегулируемой цены на электрическую энергию (мощность), связанная с учетом данных за предыдущие расчетные периоды, рублей/МВт·ч                        | 0.00           |

**II. Вторая ценовая категория**  
(для объемов покупки электрической энергии (мощности),  
учет которых осуществляется по зонам суток расчетного периода)

**1. Предельный уровень нерегулируемых цен для трех зон суток, рублей/МВт·ч без НДС**

| Зоны суток  | Уровень напряжения |           |           |           |
|-------------|--------------------|-----------|-----------|-----------|
|             | ВН                 | СН I      | СН II     | НН        |
| Ночная      | 4 119.12           | 4 489.65  | 5 998.10  | 7 382.36  |
| Полупиковая | 5 963.90           | 6 334.43  | 7 842.88  | 9 227.14  |
| Пиковая     | 12 281.66          | 12 652.19 | 14 160.64 | 15 544.90 |

**2. Предельный уровень нерегулируемых цен для двух зон суток, рублей/МВт·ч без НДС**

| Зоны суток | Уровень напряжения |          |           |           |
|------------|--------------------|----------|-----------|-----------|
|            | ВН                 | СН I     | СН II     | НН        |
| Ночная     | 4 119.12           | 4 489.65 | 5 998.10  | 7 382.36  |
| Дневная    | 8 336.53           | 8 707.06 | 10 215.51 | 11 599.77 |

### III. Третья ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляется почасовой учет, но не осуществляется почасовое планирование, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в одноставочном выражении)

#### 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

| Дата | 1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |

2. Ставка за мощность предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС 894909.35

#### IV. Четвертая ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляется почасовой учет, но не осуществляется почасовое планирование, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в двухставочном выражении)

##### 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

##### 1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН

|                                                                                             | 1 146 845.33       | 1 297 467.23 | 1 729 795.29 | 1 577 120.23 |

# V. Пятая ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляются почасовое планирование и учет, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в одноставочном выражении)

## I. Ставка за электрическую энергию предельного уровня перегулируемых цен, рублей/МВт·ч без НДС

| 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС |                                                                                                                |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |

|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
|                                                                                                                                                                 | Величина ставки |
| Ставка для суммы плановых почасовых объемов покупки электрической энергии за расчетный период, рублей/МВт·ч без НДС                                             | 11.16           |
| Ставка для суммы абсолютных значений разностей фактических и плановых почасовых объемов покупки электрической энергии за расчетный период, рублей/МВт·ч без НДС | 323.16          |

4. Ставка за мощность, предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС 894909.35

## VI. Шестая ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляются почасовое планирование и учет, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в двухставочном выражении)

### 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

| 1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН |           |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |

| Ставка тарифа на услуги по передаче электрической энергии за содержание электрических сетей | 1 146 845.33       | 1 297 467.23 | 1 729 795.29 | 1 577 120.23 |

Плата за услуги по управлению изменением режима потребления электрической энергии для потребителей

| Наименование показателя                                                                                                                                                                           | Ед.изм.      | Значение |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|----------|
| Плата за услуги по управлению изменением режима потребления электрической энергии в отношении расчетного периода m для потребителей, осуществляющих расчеты по первой и второй ценовым категориям | рублей /МВтч | 0.72     |
| Плата за услуги по управлению изменением режима потребления электрической энергии для потребителей, осуществляющих расчеты по третьей - шестой ценовым категориям                                 | рублей /МВт  | 479.70   |
