

**Потребители с максимальной мощностью энергопринимающих устройств свыше 10 МВт**

**Предельные уровни нерегулируемых цен на электрическую энергию (мощность), поставляемую потребителям (покупателям) гарантирующим поставщиком ООО "Ивановэнергообьит"**

в

марте 2026

(месяц и год)

**I. Первая ценовая категория**

(для объемов покупки электрической энергии (мощности), учет которых осуществляется в целом за расчетный период)

**1. Предельный уровень нерегулируемых цен**

|                                                                    | Уровень напряжения |          |          |           |
|--------------------------------------------------------------------|--------------------|----------|----------|-----------|
|                                                                    | ВН                 | СН I     | СН II    | НН        |
| <b>Предельный уровень нерегулируемых цен, рублей/МВт·ч без НДС</b> | 6 417.32           | 6 830.42 | 8 311.72 | 10 405.76 |

|                                                                                                                                                                                                       |                 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| <b>2. Средневзвешенная нерегулируемая цена на электрическую энергию (мощность), используемая для расчета предельного уровня нерегулируемых цен для первой ценовой категории, рублей/МВт·ч без НДС</b> | <b>3 538.88</b> |
| 3. Составляющие расчета средневзвешенной нерегулируемой цены на электрическую энергию (мощность), используемой для расчета предельного уровня нерегулируемых цен для первой ценовой категории:        |                 |
| а) средневзвешенная нерегулируемая цена на электрическую энергию на оптовом рынке, рублей/МВт·ч                                                                                                       | 2281,76         |
| б) средневзвешенная нерегулируемая цена на мощность на оптовом рынке, рублей/МВт                                                                                                                      | 1127443,34      |
| в) коэффициент оплаты мощности потребителями (покупателями), осуществляющими расчеты по первой ценовой категории, 1/час                                                                               | 0.00111501445   |
| г) объем фактического пикового потребления гарантирующего поставщика на оптовом рынке, МВт                                                                                                            | 95.316          |
| д) величина мощности, соответствующей покупке электрической энергии гарантирующим поставщиком у производителей электрической энергии (мощности) на розничных рынках, МВт                              | 0.000000000000  |
| е) сумма величин мощности, оплачиваемой на розничном рынке потребителями (покупателями), осуществляющими расчеты по второй - шестой ценовым категориям, МВт                                           | 7.218           |
| в том числе:                                                                                                                                                                                          |                 |
| по второй ценовой категории, МВт                                                                                                                                                                      | 0.034           |
| по третьей ценовой категории, МВт                                                                                                                                                                     | 0.285           |
| по четвертой ценовой категории, МВт                                                                                                                                                                   | 6.899           |
| по пятой ценовой категории, МВт                                                                                                                                                                       | 0.000           |
| по шестой ценовой категории, МВт                                                                                                                                                                      | 0.000           |
| ж) объем потребления мощности населением и приравненными к нему категориями потребителей, МВт                                                                                                         | 58.2875         |
| з) объем потребления электрической энергии потребителями (покупателями), осуществляющими расчеты по второй ценовой категории, МВт·ч                                                                   | 10.651          |
| в том числе:                                                                                                                                                                                          |                 |
| для трех зон суток, МВт·ч                                                                                                                                                                             | 10.651          |
| по ночной зоне суток, МВт·ч                                                                                                                                                                           | 3.163           |
| по полупиковой зоне суток, МВт·ч                                                                                                                                                                      | 4.120           |
| по пиковой зоне суток, МВт·ч                                                                                                                                                                          | 3.368           |
| для двух зон суток, МВт·ч                                                                                                                                                                             | 0.000           |
| по ночной зоне суток, МВт·ч                                                                                                                                                                           | 0.000           |
| по пиковой зоне суток, МВт·ч                                                                                                                                                                          | 0.000           |
| и) фактический объем потребления электрической энергии гарантирующим поставщиком на оптовом рынке, МВт·ч                                                                                              | 60894.934       |
| к) совокупный объем покупки электрической энергии гарантирующим поставщиком у производителей электрической энергии (мощности) на розничных рынках, МВт·ч                                              | 0.000           |
| в т.ч. у собственников и иных законных владельцев объектов микрогенерации, МВт·ч                                                                                                                      | 0.000           |
| л) сумма объемов потребления электрической энергии потребителями (покупателями), осуществляющими расчеты по второй - шестой ценовым категориям, МВт·ч                                                 | 4957.406        |
| в том числе:                                                                                                                                                                                          |                 |
| по второй ценовой категории, МВт·ч                                                                                                                                                                    | 10.651          |
| по третьей ценовой категории, МВт·ч                                                                                                                                                                   | 192.035         |
| по четвертой ценовой категории, МВт·ч                                                                                                                                                                 | 4754.720        |
| по пятой ценовой категории, МВт·ч                                                                                                                                                                     | 0.000           |
| по шестой ценовой категории, МВт·ч                                                                                                                                                                    | 0.000           |
| м) объем потребления электрической энергии населением и приравненными к нему категориями потребителей, МВт·ч                                                                                          | 29202.000       |
| н) величина изменения средневзвешенной нерегулируемой цены на электрическую энергию (мощность), связанная с учетом данных за предыдущие расчетные периоды, рублей/МВт·ч                               | 0.00            |

**II. Вторая ценовая категория**

(для объемов покупки электрической энергии (мощности),  
учет которых осуществляется по зонам суток расчетного периода)

**1. Предельный уровень нерегулируемых цен для трех зон суток, рублей/МВт·ч без НДС**

| Зоны суток | Уровень напряжения |           |           |           |
|------------|--------------------|-----------|-----------|-----------|
|            | ВН                 | СН I      | СН II     | НН        |
| Ночная     | 4 842.07           | 5 255.17  | 6 736.47  | 8 830.51  |
| Полуночная | 6 622.52           | 7 035.62  | 8 516.92  | 10 610.96 |
| Пиковая    | 15 146.68          | 15 559.78 | 17 041.08 | 19 135.12 |

**2. Предельный уровень нерегулируемых цен для двух зон суток, рублей/МВт·ч без НДС**

| Зоны суток | Уровень напряжения |           |           |           |
|------------|--------------------|-----------|-----------|-----------|
|            | ВН                 | СН I      | СН II     | НН        |
| Ночная     | 4 842.07           | 5 255.17  | 6 736.47  | 8 830.51  |
| Дневная    | 9 967.20           | 10 380.30 | 11 861.60 | 13 955.64 |

### III. Третья ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляется почасовой учет, но не осуществляется почасовое планирование, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в одноставочном выражении)

#### 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

| Дата | 1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |

2. Ставка за мощность предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС

1 128 473.26

**IV. Четвертая ценовая категория**

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляется почасовой учет,  
но не осуществляется почасовое планирование, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в двухставочном выражении)

| I. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС                  |           |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |

2. Ставка за мощность, предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС

1 128 473.26

3. Дифференцированная по уровням напряжения ставка тарифа на услуги по передаче электрической энергии за содержание электрических сетей предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС

| Ставка тарифа на услуги по передаче электрической энергии за содержание электрических сетей | Уровень напряжения |              |              |              |
|---------------------------------------------------------------------------------------------|--------------------|--------------|--------------|--------------|
|                                                                                             | ВН                 | СН1          | СН2          | НН           |
|                                                                                             | 1 278 599.51       | 1 446 525.46 | 1 826 565.23 | 1 890 651.73 |

**V. Пятая ценовая категория**

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляются почасовое планирование и учет, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в одноставочном выражении)

**1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС**

**1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН**

4. Ставка за мощность, предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС

1 128 473.26

**VI. Шестая ценовая категория**

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляются почасовое планирование и учет, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в двухставочном выражении)
