

Потребители с максимальной мощностью энергопринимающих устройств от 670 кВт до 10 МВт

Предельные уровни нерегулируемых цен на электрическую энергию (мощность), поставляемую потребителям (покупателям)  
гарантирующим поставщиком ООО "Ивановоэнергосбыт"

в

июле 2025

(месяц и год)

I. Первая ценовая категория

(для объемов покупки электрической энергии (мощности), учет которых осуществляется в целом за расчетный период)

1. Предельный уровень нерегулируемых цен

|                                                             | Уровень напряжения |          |          |           |
|-------------------------------------------------------------|--------------------|----------|----------|-----------|
|                                                             | ВН                 | СН I     | СН II    | НН        |
| Предельный уровень нерегулируемых цен, рублей/МВт·ч без НДС | 6 320.82           | 6 733.92 | 8 215.22 | 10 309.26 |

|                                                                                                                                                                                                |                 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| 2. Средневзвешенная нерегулируемая цена на электрическую энергию (мощность), используемая для расчета предельного уровня нерегулируемых цен для первой ценовой категории, рублей/МВт·ч без НДС | 3 377.41        |
| 3. Составляющие расчета средневзвешенной нерегулируемой цены на электрическую энергию (мощность), используемой для расчета предельного уровня нерегулируемых цен для первой ценовой категории: |                 |
| а) средневзвешенная нерегулируемая цена на электрическую энергию на оптовом рынке, рублей/МВт·ч                                                                                                | 2166.30         |
| б) средневзвешенная нерегулируемая цена на мощность на оптовом рынке, рублей/МВт                                                                                                               | 918341.66       |
| в) коэффициент оплаты мощности потребителями (покупателями), осуществляющими расчеты по первой ценовой категории, 1/час                                                                        | 0.00131880648   |
| г) объем фактического пикового потребления гарантирующего поставщика на оптовом рынке, МВт                                                                                                     | 80.999          |
| д) величина мощности, соответствующей покупке электрической энергии гарантирующим поставщиком у производителей электрической энергии (мощности) на розничных рынках, МВт                       | 0.0001383443831 |
| е) сумма величин мощности, оплачиваемой на розничном рынке потребителями (покупателями), осуществляющими расчеты по второй - шестой ценовым категориям, МВт                                    | 5.397           |
| в том числе:                                                                                                                                                                                   |                 |
| по второй ценовой категории, МВт                                                                                                                                                               | 0.039           |
| по третьей ценовой категории, МВт                                                                                                                                                              | 0.307           |
| по четвертой ценовой категории, МВт                                                                                                                                                            | 5.051           |
| по пятой ценовой категории, МВт                                                                                                                                                                | 0.000           |
| по шестой ценовой категории, МВт                                                                                                                                                               | 0.000           |
| ж) объем потребления мощности населением и приравненными к нему категориями потребителей, МВт                                                                                                  | 46.3055         |
| з) объем потребления электрической энергии потребителями (покупателями), осуществляющими расчеты по второй ценовой категории, МВт·ч                                                            | 17.504          |
| в том числе:                                                                                                                                                                                   |                 |
| для трех зон суток, МВт·ч                                                                                                                                                                      | 17.504          |
| по ночной зоне суток, МВт·ч                                                                                                                                                                    | 5.369           |
| по полупиковой зоне суток, МВт·ч                                                                                                                                                               | 7.492           |
| по пиковой зоне суток, МВт·ч                                                                                                                                                                   | 4.643           |
| для двух зон суток, МВт·ч                                                                                                                                                                      | 0.000           |
| по ночной зоне суток, МВт·ч                                                                                                                                                                    | 0.000           |
| по пиковой зоне суток, МВт·ч                                                                                                                                                                   | 0.000           |
| и) фактический объем потребления электрической энергии гарантирующим поставщиком на оптовом рынке, МВт·ч                                                                                       | 48929.068       |
| к) совокупный объем покупки электрической энергии гарантирующим поставщиком у производителей электрической энергии (мощности) на розничных рынках, МВт·ч                                       | 0.103           |
| в т.ч. у собственников и иных законных владельцев объектов микрогенерации, МВт·ч                                                                                                               | 0.103           |
| л) сумма объемов потребления электрической энергии потребителями (покупателями), осуществляющими расчеты по второй - шестой ценовым категориям, МВт·ч                                          | 3515.662        |
| в том числе:                                                                                                                                                                                   |                 |
| по второй ценовой категории, МВт·ч                                                                                                                                                             | 17.504          |
| по третьей ценовой категории, МВт·ч                                                                                                                                                            | 205.805         |
| по четвертой ценовой категории, МВт·ч                                                                                                                                                          | 3292.353        |
| по пятой ценовой категории, МВт·ч                                                                                                                                                              | 0.000           |
| по шестой ценовой категории, МВт·ч                                                                                                                                                             | 0.000           |
| м) объем потребления электрической энергии населением и приравненными к нему категориями потребителей, МВт·ч                                                                                   | 23199.000       |
| н) величина изменения средневзвешенной нерегулируемой цены на электрическую энергию (мощность), связанная с учетом данных за предыдущие расчетные периоды, рублей/МВт·ч                        | 0.00            |

**II. Вторая ценовая категория**  
(для объемов покупки электрической энергии (мощности),  
учет которых осуществляется по зонам суток расчетного периода)

**1. Предельный уровень нерегулируемых цен для трех зон суток, рублей/МВт·ч без НДС**

| Зоны суток  | Уровень напряжения |           |           |           |
|-------------|--------------------|-----------|-----------|-----------|
|             | ВН                 | СН I      | СН II     | НН        |
| Ночная      | 4 220.33           | 4 633.43  | 6 114.73  | 8 208.77  |
| Полупиковая | 6 665.18           | 7 078.28  | 8 559.58  | 10 653.62 |
| Пиковая     | 11 193.43          | 11 606.53 | 13 087.83 | 15 181.87 |

**2. Предельный уровень нерегулируемых цен для двух зон суток, рублей/МВт·ч без НДС**

| Зоны суток | Уровень напряжения |          |           |           |
|------------|--------------------|----------|-----------|-----------|
|            | ВН                 | СН I     | СН II     | НН        |
| Ночная     | 4 220.33           | 4 633.43 | 6 114.73  | 8 208.77  |
| Дневная    | 8 823.15           | 9 236.25 | 10 717.55 | 12 811.59 |

### III. Третья ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляется почасовой учет, но не осуществляется почасовое планирование, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в одноставочном выражении)

#### 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

| Дата | 1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |

2. Ставка за мощность предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС

919 089.68

#### IV. Четвертая ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляется почасовой учет, но не осуществляется почасовое планирование, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в двухставочном выражении)

##### 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

##### 1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН

| Дата | 1.1. 2. Ставка за мощность предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС 919 089.68

3. Дифференцированная по уровням напряжения ставка тарифа на услуги по передаче электрической энергии за содержание электрических сетей предельного уровня нерегулируемых цен, рублей/МВт в месяц без НДС

| Ставка тарифа на услуги по передаче электрической энергии за содержание электрических сетей | Уровень напряжения |              |              |              |
|---------------------------------------------------------------------------------------------|--------------------|--------------|--------------|--------------|
|                                                                                             | ВН                 | СН1          | СН2          | НН           |
|                                                                                             | 1 278 599.51       | 1 446 525.46 | 1 826 565.23 | 1 890 651.73 |

# V. Пятая ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляются почасовое планирование и учет, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в одноставочном выражении)

## I. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

| Дата | I.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |

| Ставка для суммы плановых почасовых объемов покупки электрической энергии за расчетный период, рублей/МВт·ч без НДС                                             | -9.24           |
| Ставка для суммы абсолютных значений разностей фактических и плановых почасовых объемов покупки электрической энергии за расчетный период, рублей/МВт·ч без НДС | 171.05          |

## VI. Шестая ценовая категория

(для объемов покупки электрической энергии (мощности), в отношении которых за расчетный период осуществляются почасовое планирование и учет, а стоимость услуг по передаче электрической энергии определяется по тарифу на услуги по передаче электрической энергии в двухставочном выражении)

### 1. Ставка за электрическую энергию предельного уровня нерегулируемых цен, рублей/МВт·ч без НДС

| Дата | 1.1. Ставка для фактических почасовых объемов покупки электрической энергии, отпущенных на уровне напряжения ВН |           |           |           |           |           |           |           |           |            |             |             |             |             |             |             |             |             |             |             |             |             |             |             |
